## DETAILED ACTION

### *Specification*

1. Claims 6-22 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim ~~is~~<sup>is</sup> See MPEP § 608.01(n). Accordingly, the claims 6-22 not been further treated on the merits.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-5 rejected under 35 U.S.C. 103(a) as being unpatentable over Piacentino (5749579) in view of Ex.parte Breslow 192 USPQ 431.

Claim 1: Piacentino teaches a board game (Fig.1), markers (Fig.4-5) capable of being used as any markers, spaces (34a, 34c), and random number generating device (3:57).

Applicant might argue that the cards do not indicate the same task as in applicant's cards.

Examiner takes the position that the difference between applicant's cards and cited cards resides in meaning and information conveyed by the printed matter that are not considered patentable difference.

In order to change the theme/task of a game, it would have been obvious to use a different printed matter. One of ordinary skill in art at the time the invention was made

Art Unit: 3711

would have suggested changing printed matter on cards to match the theme/task to create a variation but not patentably different game.

Claim 2-3: "representing fire fighting districts" is not a structure that further limits the claim. Any indicia is capable of representing any theme theme.

Claim 4: Markers (Fig.4-5).

Claim 5: Player color associated to markers (3:35-42).
